Susan Mutschler

Hi,

At last evening's Library Board meeting, it was mentioned that the Charter Revision is looking into the possibility of changing the Library Board from an advisory to governing capacity.

Upon hearing this, I mentioned that I would be happy to make a presentation on the pros and cons regarding this possible change.

Having worked in library leadership in three states, New Jersey, Florida, and Connecticut, and having been involved as a Library Board member, myself, I feel that I am the right person to answer any questions that the Charter Revision Committee might have.

Thank you,

**Susan Mutschler, Library Director**
